

AZAAN MEHTAB KHAN

Full-Stack Developer | BSSE Undergrad

Professional Summary

Ambitious Software Engineering undergraduate, building impactful technology solutions that combine strong engineering practices with exceptional user experiences. Experienced in developing scalable applications through internships and self-driven projects, with exposure to the complete software development lifecycle. Driven by curiosity, continuous learning, and a problem-solving mindset, with a growing interest in modern software systems and artificial intelligence. Open to internship, co-op, and early-career opportunities in Software Engineering, Full-Stack Development, Backend Engineering, Frontend Engineering, and AI Engineering.

Work Experience

Front End Developer

May 2026 – August 2026

Naxasware | Karachi, Pakistan

- Developed and delivered frontend solutions for end-to-end digital projects, transforming requirements and designs into production-ready user interfaces.
- Built scalable, maintainable, and responsive web applications using React.js and Next.js, with strong focus on performance optimization and user experience.
- Collaborated with stakeholders to estimate project scope and participated in design discussions and code reviews.
- Utilized Git for version control, enabling efficient collaboration and streamlined development workflows.

Backend AI Engineer Intern

June 2026 – Present (Ending August 2026)

Flyrank AI

- Contributing to the development of AI-driven backend systems and supporting engineering initiatives.
 - Working on scalable backend systems, AI integrations, and modern software engineering workflows.
 - Gaining hands-on experience with AI integrations and backend development best practices.
-

Projects

SkillNest - GitHub-based Profile Builder

- Built tool that generates developer profile by tracking skills, projects, and GitHub activity.
- Enables ATS-optimized resume export using real-time GitHub data.
- Tech:** React, Tailwind CSS, GitHub API, Axios

Shophub - Modern E-commerce Web Application

- Built responsive e-commerce platform with cart, wishlist, checkout, and authentication.
- Implemented Context API for state management and attractive UI/UX with animations.
- Tech:** React, Tailwind CSS, Firebase, Axios, React Router

AeroCasta - Weather Dashboard

- Developed responsive dashboard showing real-time weather, forecasts, and location-based updates.
- Features include city search, 7-day forecast, and error handling.
- **Tech:** HTML, CSS, Tailwind, JavaScript, OpenMeteo API

Echoplay – Backend (YouTube-like System)

- Built a scalable backend system replicating core YouTube functionality, handling video-centric workflows and user-driven interactions.
- Designed and implemented RESTful APIs for video upload, streaming logic, authentication, likes, comments, and user engagement features.
- Implemented robust data models and controller-level business logic to enforce separation of concerns and ensure a modular, maintainable backend structure.
- **Tech:** Node.js, Express.js, MongoDB

Blogzaan - Blog Web Application

- Created responsive blog platform with CRUD functionality, user authentication, and real-time data.
 - Implemented dynamic UI/UX, animations, and multi-page routing.
 - **Tech:** React, Firebase, Tailwind CSS, React Router, Context API
-

Skills

- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS
 - **Backend:** Node.js, Express.js, Django
 - **Databases:** MongoDB, SQLite3, Firebase (Auth, Firestore)
 - **Languages:** JavaScript, Python, C++, Java (OOP), TypeScript
 - **Tools & Others:** Git, GitHub, MS Office (Advanced)
-

Education

Bachelor of Software Engineering
UBIT, University of Karachi, Karachi

Expected Dec 2028

Intermediate - Pre-Engineering
Cadet College Fateh Jang, Rawalpindi

Aug 2024

Certifications

AWS Cloud Practitioner Essentials July 2026
Amazon Web Services (AWS)

AWS Cloud Quest: Cloud Practitioner Badge – Trained July 2026
Amazon Web Services (AWS)

Frontend Development
Techzone Learning, Karachi

May 2025

MS-Office (Advanced)
Techzone Learning, Karachi

Oct 2024

Volunteer Experience

Technical Team Member

Apr 2026

AWS Cloud Club - UOK

- Contributing to the organization and execution of cloud-focused initiatives, workshops, and student engagement activities.
- Helping design and deliver technical sessions covering AWS cloud services, cloud computing fundamentals, and modern cloud concepts.
- Improving the understanding of cloud computing with teamwork, communication, and execution skills in a technical community environment.

Volunteer

Apr 2026

ICISCT – ICCBS, University of Karachi

- Contributed to the successful execution of an international academic conference by supporting day-to-day event operations and participant coordination.
- Assisted in managing technical sessions, ensuring smooth scheduling and seamless transitions between presentations and activities.
- Collaborated with organizing committees, speakers, and attendees to facilitate effective communication and resolve operational challenges.

Volunteer

Jan 2026

Career Fest – UBIT, University of Karachi

- Supported the planning and on-site execution of a university-wide career fair involving industry professionals, recruiters, and students.
- Assisted with event logistics, participant coordination, and operational activities to ensure a well-organized experience for attendees.
- Strengthened communication, teamwork, and adaptability skills while working in a dynamic, high-energy event setting.
